SRF-35/40

TUBE FIRED GAS FRYER

The Sierra all-purpose fryers feature outstanding reliability and durability, capable of cooking a wide variety of fried foods with consistent uniformity and great taste.

Three highly efficient cast iron burners and stainless steel tubes create a large heat transfer area for even heat distribution. Our durable temperature probe senses temperature changes and activates a quick burner response. The temperature for the SRF-35/40 ranges from 200°F (93°C) to 400°F (204°C). Includes Millivolt safety control system.

Every inch of the frypot and cold zone can be cleaned and wiped down by hand. The large cold zone and forward sloping bottom help collect and remove sediment from the frypot to safeguard oil quality and support routine frypot cleaning.

6" swivel casters are optional.
Part #: 119-0021 (Set of 4, 2 locking and 2 non-locking).
