Self-Serve Merchandisers

Patented Self-Cleaning Condenser

This product is equipped with a fine mesh filter to the front of the condenser to catch dust, and a rotating brush that moves up and down daily to remove excess buildup outward and away.

Model : TIOM-36RSB-N

FEATURES & BENEFITS

Self-Cleaning Condenser

The accumulation of dust in the condenser causes the failure or breakdown of refrigerators. Refrigerators run normally until they reach a certain level of accumulation. At some point, when they are over the limit, their performance drops quickly resulting in damage to, or disposal of the stored products in refrigerators. The Self-Cleaning Condenser device keeps the condenser clean and prevents system failure by automatically brushing daily.

Hydrocarbon refrigerant (R-290)

With innovative and eco-friendly technology, Turbo Air brings you hydrocarbon refrigerators and freezers designed to meet the new standards of EPA and DOE in 2017. Hydrocarbon refrigerants do not deplete the ozone layer and have zero to low contribution to the global warming (ODP-0, GWP-3)

Modern design

By harmonizing curvature and rigidness, our modern style product designs are user-friendly while maintaining the highest product visibility and aesthetics. The glass front shield optimize the merchandiser's display effects of fresh salads, sandwiches, desserts and beverages.

Designed to enhance impulsive sales

Ideal for eye-catching displays and convenient access with fast service in high traffic area.

LED lighting on top panel and canopy

Brighter and longer lasting LED lights provide attractive, enhanced illumination compared to fluorescents. It saves energy by producing less heat, while maximizing the visibility in the display area.

ABS bump guard liners

5mm thick durable clear PC (polycarbonate) product stopper

Simple plug-in installation

Patented self-contained system, no plumbing required

Digital electronic thermostat with defrost control

Standard color comes in black only

Price tag rails standard
