Electric Crepe Makers

Standard & Luxury Range

Krampouz is known for its exceptional crepe makers, offering both standard and luxury lines to meet different needs and preferences. Here are descriptions of both.

Standard Electric Range

Efficiency Designed for reliability and efficiency, the Krampouz Electric Standard Range ensures consistent crepe making performance.

User-friendly These crepe makers are easy to use, making them suitable for both beginners and experienced chefs.

Versatility With adjustable temperature controls, they allow you to achieve the perfect heat level for cooking different types of crepes, from thin and delicate to thicker varieties.

Durability Built with durable materials, the Electric Standard Range ensures longevity and reliability, even with frequent use in commercial environments.

Compact design Its compact design makes it ideal for smaller kitchens or food stalls without compromising on quality or performance.

Warranty
(1) year parts and labor

Luxury Electric Range

Premium quality The Electric Luxury Range exemplifies Krampouz's commitment to excellence, offering top-of-the-line crepe makers made with premium materials.

Advanced features These crepe makers are often equipped with advanced features such as precise temperature control, programmable settings and enhanced safety features.

Elegance With sleek and elegant designs, the luxury line adds a touch of sophistication to any kitchen or culinary establishment.

Customization options Some models in the Luxury Series offer customization options, allowing chefs to tailor settings to their specific crepe-making techniques and recipes.

Enhanced performance Designed for professional use, the Luxury Series delivers superior performance, ensuring consistent results and exceptional crepes every time.
