CPWF

Transparent pre-filter bottle

QLYPPF
PP cotton pre-filter cartridge

SA950750
Main water filter cartridge i4000²-CN

Designed for small and medium-capacity ice machines, this high-performance water filtration system removes impurities, sediments and other harmful contaminants to deliver cleaner and safer water for improved ice production.

FEATURES

- Effectively reduces any residual impurities commonly found in tap water, helping to produce crystal-clear ice cubes with proved taste and food safety standards.
- Capable of filtering up to 12,000 gallons (45 L) of water, reducing maintenance requirements and lowering filter replacement costs.
- Helps prevent limescale build up inside the ice machine, improving hygiene, extending equipment life and ensuring high-quality ice production.
- Compatible with Brema and Resolute ice machine with a production capacity of 1,003 lb (455 kg) per day or less.

SPECIFICATIONS

Rated net water flow:
1.6 gal/min (6.3 L/min)

Filter slot size: 0.5 microns

Inlet water temperature:
35 °F – 100 °F (2 °C – 38 °C)

Replacement cartridges:
QLYPPF: PP Cotton pre-filter cartridge
SA950750: Main water filter cartridge

Dimensions:
Length: 5” (12 cm)
Width: 12” (30 cm)
Height: 25.5” (64 cm)

Net weight: 10 lb (4 kg)

Shipping dimensions:
Length: 7” (17 cm)
Width: 14” (35 cm)
Height: 27” (68 cm)

Replacement cycle

- Recommended to change the PP filter cartridge every three months.
- Recommended to change the main filter cartridge every six months.
